# **Training for Transition**

#### November 27, 2018

#### **Brig Gen Sharon Bannister**

Deputy Assistant Director, Education and Training, DHA

#### **Dr. Paul Cordts** Deputy Assistant Director, Medical Affairs, DHA

Unclassified

At the conclusion of this activity, the participant will be able to:

- 1. Understand the functions that will be performed at the DHA HQ, DHA MTF, and Service MTF levels for Education and Training
- Describe the support that the Deputy Assistant Director of Education & Training (DAD, E&T) will lend after 1 October 2018, including:
  - Medical Modeling and Simulation (MM&S)
  - Continuing Education (CE)
  - Annual Training
- 3. Define how Graduate Medical Education (GME) will change during and after the MTF transition process

## National Defense Authorization Act for Fiscal Year 2017 – Title VII

Unclassified

# Setting the Foundation for a Ready Medical Force

# **Determining Medical Manpower Requirements** – January 2019 (FY17 NDAA Sec 721)

- Identifying personnel requirements to meet operational medical force readiness requirements
- Establishing a process for potential conversion of non-operationally-required positions

Defining essential Knowledge, Skills, and Attributes (KSAs) – ongoing efforts

Integrating and accelerating existing work

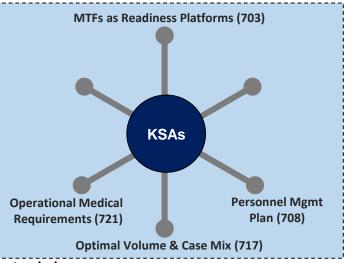

#### Enhancing essential Education, Training, and Career

Paths – July 2019 (Sec 708)

- Crafted plans to establish Joint Trauma Education
  and Training Directorate to leverage partnerships,
  standardized instruction, data, and research to improve training
- Personnel Management Plan will outline required numbers and strategies for accession, crucial assignments, and career pathways for key medical specialties

Unclassified

 Designing processes to emphasize jointness, focus on operational medical readiness requirements, and minimize unnecessarily duplication across programs

**Reinforcing the role of MTFs as Readiness Platforms –** Jul 2019 (Sec 703)

- Assessing portfolio of MTFs through a readiness lens to determine need for changes
- Concludes with an Implementation Plan to drive toward next generation for the MHS

**Centralizing Management and Administration of the MTFs** – October 2018 (Sec 702)

 Transferring of the management of the MTFs to the Defense Health Agency (phased approach)

## Medical Modeling & Simulation (MM&S)

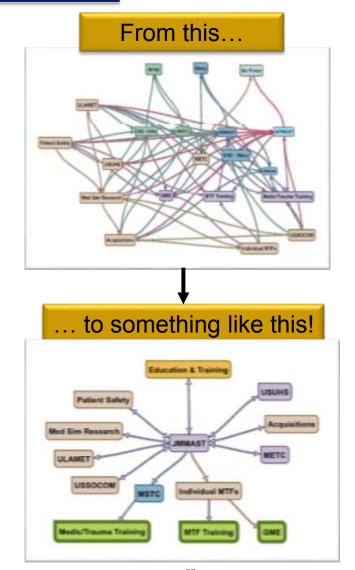

Unclassified

## Defense Medical Modeling & Simulation (DMM&S) Office

Medical Simulation is a *critical component* to help ensure a "World Class" Military Healthcare System both in CONUS and during contingency operations. It is directly applicable *to the care of* every service member and dependent in the DoD

The way forward for medical simulation will be *Joint*. *Centralization* and *organization* of medical simulation and training across the services will result in *better outcomes* and more *efficient use* of resources

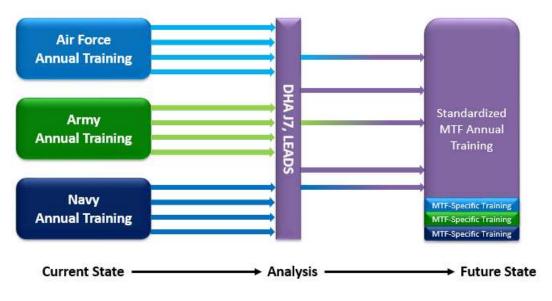

Unclassified

## **Annual Training**

- Current analysis of all MTF training in progress
- J-7 will create a standardized set of core Annual Training prescribed to the MTFs in 2019
- Developing a training "road map" prioritizing roll-out of standardized training by function
