

AMSUS Regional Seminars Program Champion Guidance

Regional Seminars are designed to provide professional development and networking opportunities and to expand awareness of AMSUS. Integrated (DHA/DoD, VA, PHS, Academia) panels will provide a broader perspective of topics and encourage open dialogue during Q&A sessions. Seminars are open to all: member, non-member, civilian, industry, and anyone interested! CE/CMEs may be available, but not required. Preferred audience size is 25-100 (depending on venue) to encourage networking and collaboration.

AMSUS is a “neutral forum” for those working in/with the federal health community and relies on their involvement to achieve its vision: *As the voice for federal health professionals and passionate advocate for DHA/DoD, VA and HHS interagency healthcare collaboration, we are a dedicated team committed to building the best non-profit membership-based association while exceeding all expectations for those we serve.*
