

How to complete Quiz Questions in the speaker Task list

1. Develop your 10 multiple choice questions/answers in a Word document; one question/three answers with one of them the correct response.
2. Copy/past the question in the first column, and answer choices in the center column separated by a semicolon. Designate the correct response in the third column.
3. The question and answer boxes can be enlarged by 'pulling' the lower right corner of the box with your mouse for better visibility.
4. Select Update Questions when complete.

EXAMPLE:

Update Questions
